New Ord Fire Hall

**1640 M Street
Ord, NE**

Objectives

Upon Completion the participant will be able to:

1. Review the patient assessment process
2. Identify specific assessment findings that alert us to patient problems
3. Provide patient care based on patient signs/symptoms and specific findings
4. Develop an understanding of the history of cardiac resuscitation
5. Recall current standards & guidelines of resuscitation
6. Understand the use of evidence based medicine and how it will affect the future treatment of our patients
7. Perform assessments and treatment of medical and trauma patients using scenarios.
8. Discuss what is new in EMS.

7 hours of continuing education granted
